

On-Campus Recruiting at:
Texas A&M University

Campus Career Fair:
Spring 2009 Engineering Career Fair

Date:
Tuesday, January 27, 2009

MIT Lincoln Laboratory offers scientists and engineers the opportunity to work on challenging problems critical to national security. A Department of Defense federally funded research and development center (FFRDC), Lincoln Laboratory has a focused commitment to research and development, with an emphasis on building prototypes and demonstrating operational systems under live test conditions that meet real-world requirements.

Three areas constitute the core of the work performed at Lincoln Laboratory: sensors, information extraction (signal processing and embedded computing), and communications, all supported by a broad research base in advanced electronics.

If you are pursuing a BS/MS/PhD in any of the following majors, or a comparable scientific or technical field, our technical staff would like to meet you.

- **Electrical Engineering**
- **Computer Science**
- **Physics**
- **Mathematics**
- **Materials Science**
- **Mechanical Engineering**
- **Aeronautics/Astronautics**
- **Biology/Biochemistry**

To be considered for employment please submit your resume to MIT Lincoln Laboratory's website www.ll.mit.edu/college/oncampus.html

-The search screen will appear. Please enter **Texas** and click **Search**.

-Select your campus name from the answer set that appears.

-A new screen will appear. Click **Create Profile** (top right of screen), and submit your information.

MIT Lincoln Laboratory's fundamental mission is to apply science and advanced technology to critical problems of national security. To ensure excellence in the fulfillment of this mission, the Laboratory is committed to fostering an environment that embraces and leverages diversity of thought, culture, and experience.
